

## Election November 2012

This has been the most interesting election cycle for Clerks in recent history. More offices have been challenged, and by more NPA and write-in candidates. Eleven incumbent Clerks had opposition in the General Election and each won their races. Of the 21 newly-elected Clerks, highlighted in green, they represent the largest class the association can recall. Of those newly elected, one has already served as Clerk in his county. Ten other Clerks-elect have either been a chief deputy for their office or worked in the Clerk's Office. Eleven of the Clerks-elect were elected in the August primary. As noted below, several of the Clerks-elect have already been appointed as Clerk or Clerk ad-interim.
